

Recognizing Early Adopters of Intracerebral Hemorrhage (ICH) Stroke Data Collection

In February 2023, The American Heart Association added a new Intracerebral Hemorrhage (ICH) stroke focus to the Get With The Guidelines® - Stroke program. This added layer of data and insight provides an expanded focus on addressing and improving ICH patient care within individual hospitals and across the industry.

Thank you to the 309 early adopters who enrolled in the ICH layer within the first week after launch. Hospitals denoted with an asterisk (*) are additionally recognized for their early participation starting in 2020, during phase I of the program.

For more information on enrollment, visit heart.org/hemorrhagic or contact your American Heart Association Quality Consultant today.
